## **About the Indian Institute of Forest Management (IIFM)**

The Indian Institute of Forest Management (An autonomous institute of Ministry of Environment, Forest and Climate Change, Govt. of India) is a sectoral management institute, which constantly endeavours to evolve knowledge useful for managers in the area of Forest, Environment and Natural Resources Management and allied sectors. It disseminates such knowledge in ways that promote its application by individuals and organizations.

## **Benefits of the training programme**

The objective of the programme is to build capacity of stakeholders in sustainable land management using agroforestry. The programme orients participants towards multiple economic, environmental, social, and cultural values of tree-based systems, especially carbon sequestration, climate change mitigation and biodiversity benefits and its linkages with rural livelihoods. Further the marketing and value addition opportunities and policy environment for agroforestry in the country will be explored.

## **Pedagogy**

The programme will use a mixed pedagogy based on lectures, short videos, and case discussions to ensure collaborative and experiential learning of the participants. Local field visits will be organized for understanding real-life situations and cases.

## **Who shall apply?**

Scientists, research scholars, farmers, industrialists, policymakers, and other stakeholders interested in agroforestry are welcome to apply. There is no course fees for this training.

## **Duration of the training**
